

Designed for Trust. Delivered with Accountability.

Who We Are

AIM IT World is a KSA-based IT services and manpower consulting firm built on **150+ years of collective experience** in the Kingdom's business and technology sectors. We deliver IT services — from SAP and cybersecurity to cloud operations and smart manufacturing — and place IT professionals who stay, backed by retention guarantees on every placement.

Unlike offshore firms selling into Saudi Arabia, AIM combines deep local presence with international expertise — led by operators who have spent decades building businesses in the Kingdom, backed by global consulting capability. The people who earn your trust are the same people who deliver the work.

Vision

To be the most trusted IT services partner in Saudi Arabia — known for the depth of our accountability, not the breadth of our claims

Mission

To deliver IT services and manpower solutions where the people who earn your trust are the same people who deliver the work — backed by local knowledge, international expertise, named resources, and retention guarantees.

What We Do

IT Services

SAP advisory, AI & automation, web & mobile app development, managed IT, cloud, cybersecurity, smart manufacturing, and field support — structured by client tier.

Manpower Consulting

Source, vet, and place IT professionals across all experience levels with retention guarantees on every placement.

Why AIM — Seven Commitments

Who sells, delivers

No handoff to junior teams after contract

Replacement guarantee

90/60/30 day free replacement across all tiers

Local + Global

Local relationship managers backed by international consulting expertise

Local accountability

KSA-based decision makers, not offshore escalation

Transparent pricing

No hidden costs, scope defined upfront

Named resources

Know exactly who works on your account

Tiered focus

Three focused tiers, not generic "end-to-end" claims

Industries We Serve

Govt & Semi-Government	Large Enterprises	General Trading
Healthcare	Logistics & Supply Chain	Manufacturing
Construction & Real Estate	Retail & Consumer Businesses	Industrial Services
